[in LinkedIn](#) | [+92-3163136464](#) | [www.msameerk.com](#) | [muhammadsameer2016@yahoo.com](#) | [GitHub](#)

Skills

- **Languages:** JavaScript, TypeScript, Solidity
- **Frameworks & Libraries:** React, Next.js, Express.js, Node.js, Antd, Hardhat, Material UI, Tailwind CSS, Redux Tool Kit, Formik, ShadeCn, Zod, Zustand
- **Web Services:** REST API, React Query, Axios
- **Tools:** VsCode, Github, Git, Bitbucket, Remix, WebStrom

Experience

Frontend Developer	Transviti	Karachi, Pakistan	August 2023 - Current
<ul style="list-style-type: none">• Built dynamic dashboard based on the latest plots and charts using g2plots, allowing users to dynamically change layout.• Developed & managed and deployed React app to IIS remote server for seamless production rollout.• Worked Closely with backend developers integrate REST APIs in React Components optimizing performance and usability.• Worked on Vulnerability Assessment and Penetration Testing (VAPT) points by writing secure code to mitigate potential security risks.			
Web3 Frontend Developer	SoftSyncDev	Karachi, Pakistan	June 2023 – July 2203
<ul style="list-style-type: none">• Build responsive and interactive UI using React, Next.js, or other frontend frameworks. Collaborated closely with team members on code contributions using Git and GitHub, ensuring version control and efficient workflow.• Use libraries like Ether.js or Web3.js to interact with smart contracts. Connect frontend applications with blockchain networks (Ethereum, Polygon, Binance Smart Chain, etc.).• Read data from blockchain and display it on the Frontend. Manage global states using Redux, or Context API.			
MERN Stack Trainer	SMIT	Hyderabad, Pakistan	March 2023 – Jun 2203
<ul style="list-style-type: none">• Conducted MERN Stack training sessions at SMIT (Saylani Mass IT Training), Pakistan's largest IT training platform.• Designed and developed comprehensive course content and curriculum for MERN Stack training programs.• Mentored aspiring developers, helping them build real-world projects and enhance their technical skills.• Provided guidance and support to students, assessing their performance and offering constructive feedback.			

Projects

Risk Management System (ERMVare): Client: Saudi Telecom Authority, Imam University Damam

Tech Stack: JavaScript, React, Material UI, Redux Toolkit, Chart.js, Formik, Axios

- Developed a comprehensive Risk Management System for identifying, assessing, and monitoring risks in real time.
- Integrating key features such as risk identification, assessment, real-time monitoring.
- Implemented user-specific permissions, allowing designated roles to view, manage, and mitigate risks effectively.
- Designed interactive and dynamic data visualization charts using Chart.js, enhancing risk assessment insights for different user roles.

TalentVare:

Tech Stack: Javascript, React, Redux Toolkit, Antd, Axios

- Developed **TalentVare**, a job portal enabling users to **post jobs**, apply for jobs, and create AI-generated resumes.
- Implemented an **AI-powered resume builder** to help users generate professional resumes efficiently.
- Designed a user-friendly job posting and application system, enhancing the hiring process.
- Utilized **Redux Toolkit** for efficient state management and **Antd** for a modern, responsive UI.

Education

Bachelor's in information technology	3.4 / 4.0 CGPA.	University of Sindh	Jamshoro, Pakistan	Jan/2019 -2023
--------------------------------------	-----------------	-------------------------------------	--------------------	----------------

Interest

- Passionate about sharing knowledge through technical blogs and coding insights. Published articles on [Dev.to](#), with some gaining **1000+** impressions and also share coding tips, on [LinkedIn](#)
