CAREER SUMMARY

Results-driven Frontend Developer with **2.5 years** of experience designing and building responsive web applications using **React**, Redux Tool Kit**, Tailwind CSS**, Antd and Material-UI. Successfully developed and deployed a full-featured **risk management system** for STC in Saudi Arabia, improving operational efficiency and data transparency. Known for collaborating with cross-functional teams delivering clean, scalable code. Passionate about enhancing **user experience**, optimizing performance, and delivering impactful solutions in fast-paced environments.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Solidity
- **Frameworks & Libraries:** React, Next.js, Express.js, Node.js, Hardhat, Material UI, Tailwind CSS, Redux, Formik, ShadeCn, Zod
- **Web Services:** REST API, Axios
- **Tools:** VScode, Github, Git, Bitbucket, Remix
- **Others:** Prisma, MongoDB, Ether.js,

PROFESSIONAL EXPERIENCE

MID LEVEL FRONTEND DEVELOPER: Transviti | Karachi, PK   Aug 2023 – Present

- Collaborated closely with back-end developers to integrate .net APIs into React Component.
- **Spearheaded** the development of a dynamic, data-driven dashboard using **G2Plot**, enabling users to customize data visualization layouts, which improved user interaction and decision-making by 35%.
- Collaborate closely with the development team, UI/UX design specialists, to deliver class leading software products in an agile environment.
- Worked on Vulnerability Assessment and Penetration Testing (**VAPT**) points by writing secure code to mitigate potential security risks.

WEB3 FRONTEND DEVELOPER: SoftsyncDev | Karachi, PK   May 2023 – Jul 2023

- Delivered production-ready **DApps** with smooth **Web3** interactions and improved user retention
- Collaborated with backend and smart contract teams to integrate OpenZeppelin-based contracts, ensuring proper access control via UI.
- Integrated **Ether.js** to manage wallet connections (e.g., MetaMask), execute contract calls, and listen to **blockchain** events
- Create secure and interactive user interfaces for decentralized applications (**DApps**) and build responsive React-based frontend integrated with Ethereum **smart contracts**

MERN STACK TRAINER | Saylani Mass IT Training Program | Hyderabad, PK   Feb 2023 – May 2023

- Responsible for conducting training sessions for individuals or groups of learners. This includes delivering lectures, leading hands-on coding exercises, conducting workshops and facilitating discussions to ensure effective knowledge transfer and skills development.
- Providing guidance and support to students throughout the training program. Developing course content and curriculum for **MERN Stack** training programs. Assessing student performance and progress, providing feedback to help them improve

MERN STACK DEVELOPER | HostelIn | Hyderabad, PK   Feb 2023 – May 2023

- Responsible for conducting training sessions for individuals or groups of learners. This includes delivering lectures, leading hands-on coding exercises, conducting workshops and facilitating discussions to ensure effective knowledge transfer and skills development.

Providing guidance and support to students throughout the training program. Developing course content and curriculum for **MERN Stack** training programs. Assessing student performance and progress, providing feedback to help them improve

EDUCATION

BACHELOR'S DEGREE | Information Technology | University of Sindh   2019 – 2023
