Muhammad Sameer Khan

 LinkedIn | +92-3163136464 | www.msameerk.com | ✉ muhammadsameer2016@yahoo.com | GitHub

Skills

- **Languages:** JavaScript, TypeScript, Solidity, C#
- **Frameworks & Libraries:** React, Next.js, Express.js, Node.js, Antd, Hardhat, Material UI, Tailwind CSS, Redux Tool Kit, Formik, ShadeCn, Zod
- **Web Services:** REST API, React Query, Axios
- **Tools:** VsCode, Github, Git, Bitbucket, Remix , WebStrom

Experience

Frontend Developer	Transviti	Karachi, Pakistan	August 2023 - Current

- Built dynamic dashboard based on the latest plots and charts using **g2plots**, allowing user to dynamically change layout.
- Developed & managed variety of projects including social media application and enterprise solutions.
- Worked Closely with backend developers integrate **REST APIs** in **React** Components.
- Worked on Vulnerability Assessment and Penetration Testing **(VAPT)** points, addressing security issues across web applications.

Web3 Frontend Developer	SoftSyncDev	Karachi, Pakistan	June 2023 – July 2203

- Build responsive and interactive UI using **React**, Next.js, or other frontend frameworks. Collaborated closely with team members on code contributions using **Git** and GitHub, ensuring version control and efficient workflow.
- Use libraries like Ether.js or Web3.js to interact with smart contracts. Connect frontend applications with blockchain networks (Ethereum, Polygon, Binance Smart Chain, etc.).
- Read data from blockchain and display it on the Frontend. Manage global state using **Redux**, or Context API.

MERN Stack Trainer	SMIT	Hyderabad, Pakistan	March 2023 – Jun 2203

- Conducted **MERN Stack training sessions** at **SMIT (Saylani Mass IT Training), Pakistan's largest IT training platform**.
- Designed and developed **comprehensive course content and curriculum** for MERN Stack training programs.
- Mentored aspiring developers, helping them build real-world projects and enhance their technical skills.
- Provided **guidance and support** to students, assessing their performance and offering constructive feedback.

Projects

Risk Management System:
Tech Stack: JavaScript, **React, Material UI, Redux Toolkit, Chart.js, Formik, Axios**
- Developed a comprehensive Risk Management System for identifying, assessing, and monitoring risks in real time.
- Integrating key features such as risk identification, assessment, real-time monitoring.
- Implemented **treatment planning features** to track and mitigate risks effectively.
- Integrated **Chart.js** for dynamic data visualization, improving risk assessment insights.

TalentVare:
Tech Stack: Javascript, **React, Redux Toolkit, Antd, Axios**
- Developed **TalentVare**, a job portal enabling users to **post jobs,** apply for jobs**, and** create AI-generated resumes.
- Implemented an **AI-powered resume builder** to help users generate professional resumes efficiently.
- Designed a user-friendly job posting and application system, enhancing the hiring process.
- Utilized **Redux Toolkit** for efficient state management and **Antd** for a modern, responsive UI.

Education

Bachelor's in information technology	3.4 / 4.0 CGPA.	University of Sindh	*Jamshoro, Pakistan*	Jan/2019 -2023

Interest

- Passionate about sharing knowledge through technical blogs and coding insights. Published articles on Dev.to, with some gaining **1000+** impressions and also share coding tips , on LinkedIn
